EXPERIENCE

4/2025 - 10/2025  
SKYPER BUSINESS SOLUTIONS

1. Mini Project – Sales Order Report Developed an ALV report to display sales order details using tables like VBAK, VBAP, and KNA1. Applied internal tables, loops, and select statements for data fetching. Included sorting and subtotal functionality in ALV output. 2. Practice Project – BDC for Material Master Created a BDC program to upload material master data using transaction MM01. Implemented session method and handled error logs. 3. SmartForm – Invoice Print Designed a simple invoice layout using SmartForms for billing data. Integrated with driver program and fetched data using select queries.

1/2025 - 4/2025  
ACS NETWORK & TECHNOLOGY PVT LTD

Served as the primary expert in statistical methodologies, providing guidance on data-driven decision-making across departments. Designed and implemented advanced statistical models for forecasting, regression analysis, hypothesis testing, and experimental design. Provided statistical consultation to cross-functional teams for product development, quality control, and market analysis projects. Interpreted complex datasets using tools like R, Python, SPSS, and Excel, converting raw data into actionable business insights.

7/2019 - 6/2022  
LAW & TAXATION CLUB

Successfully organized and managed [number]+ academic and co-curricular events, including workshops, guest lectures, quizzes, and statistical competitions. Coordinated with guest speakers, faculty members, and student teams to ensure smooth execution of events.
